

## GARDENING SUPPLIES

Gardening supplies will vary, depending on the size and location of the project. For indoor or outdoor container gardens or garden beds, basic supplies include:

- Trowel— Use for digging, planting, and weeding.
- Gloves— Wear gloves when gardening to protect hands from dirt and prickly plants.
- Clippers— Use for pruning plants and harvesting vegetables.
- Watering Can— Available in many shapes and sizes, watering cans are preferable to hoses because it is easier to control the water flow.
- Wheelbarrow— Use this for hauling tools and weeds.
- Rake— Keep a small rake handy to remove debris and to keep your paths neat.
- Stakes— Save your popsicle sticks to label your seed plantings.
- Basket— Use a beautiful basket to hold your harvest.
